DEMOCRATIC NOMINATIONS.

FOR PRESIDENT, MARTIN VAN BUREN. FOR VICE PRESIDENT. RICHARD M. JOHNSON.

POLITICAL.

STENOGRAPHIC GLIMPSES OF CONGRESS.

Washington, January 4th, 1836. It was expected a message would have been received from the President to day, on the subject of our relations with France; but the nature of the despatches (if any) by the late arrival is not yet made public.

Pattern Makers constantly employed for making, altering, and repairing patterns to order.

All orders and communications for the subscriber, left at flewitt & Bates's, No 16 Union street, or at the Foundry, Bridge street, near Cambridge Bridge, will receive immediate (if any) by the late arrival is not yet made public. M. Pageot, the French Charge d'Affaires, will dispose of his personal effects on Wednesday, at Auction; and probably leave the country soon. This step, I apprehend, is not to be considered in itself as indicating any hostile intentions on the part of his government, but only intended as a matter of etiquette to conform to a corresponding movement on the part of our Legation. Our Consul, Mr Brent, and the Vice Consul, Mr Bradford, who has resided many years at Paris, are both highly esteemed by the French, as well as by all American residents; and are in all respects qualified to protect the interests and honor of our country, with which they are charged. There is no probability of any change in the political relation of the countries till the President's Message shall be received at Paris; and then, if any should take place, it is far more likely to be propitious interest; and as for her honor, she withholds the twenty-five millions as a hostage for its safety:-this well known in Paris as at Washington, that the majority in the Senate would oppose a declaration of war based upon what grounds, I cannot learn. A day or two will probably settle the question; and I will there-

The Senate were engaged to day in discussing the Judiciary Bill, a measure preparatory to acting upon the Judicial nominations, and an apology for deferring them. I was not present; but learnt that Mr Leigh and others spoke; that Mr Wright wanted a new District Court in New York, and accordingly offered an amendment; and Mr Buchanan wanted one in Pa.

In the House, presentation of Petitions being in order, Mr Smith of Maine presented several; Mr Cushman of N. H. some; and when it came to the turn of Old Massachusetts, Mr Adams presented one for the Abolition of Slavery in the District of Columbia, giving notice that he intended to move to lay it on the

Mr Adams soon called him to order, for debating the adoption of a petition; and referred to the 45th Rule of the House.

The Chair decided the motion to reject to be in order; from which Mr Adams appeals. On this appeal the debate took place.

It would be in vain to think of attempting to repeat the arguments of either side. Mr Adams was sustained in his views by Messrs Mercer, Read, Briggs, Vanderpool, Bell and Everett; and the Chair was supported by Messrs Glasscock, Beardsley, Mann Jr., Williams, Patton, (who said he should vote for Mr Adam's appeals as he was understood by a number around me) Underwood, Thomas, Homer and Bynum.

The question was really one that did not literally come within any Rule; but if any, it would seem to be the 45th, which the Chair decided it did not come

The Speaker presided with admirable coolness and impartiality, declaring that he had no pride of opinion on the subject; that he should be entirely satisfied whichever way the House decided; and that he would much prefer to have their decision, than to abide by any opinion of his own. The tone and temper in for \$5, and the second week for \$4—and if essential to remain which he spoke operated like a charm, and seemed at once to change the tone of the debates. It seems only warranted, if the owner requests it. necessary for him to meet with difficulties to insure, by the manner he surmounts them, the increased approbation and confidence of the House. He always main-

CERTIFICATE. This certifies that my daughter has for a long time been troubled with a bad cough, pains in her side, under the shoulder blade, and in her head; she was unable to eat any kind of food without it producing severe pains in her stomach; her sleep was very restless, attended with slight sweats, and in fact she had all the most aggravated symptoms of consumption.— Frequent journeys into the country had been tried without producing any effect. She was at last recommended to try the American Pulmonary Balsam, by her physician, as it had been known to afford great relief in such cases, and to our great their construction makes them easily managed, and they are not liable to get out of order.

This is the most valuable VEGETABLE EXTRACT. This is the most valuable semedy yet discovered for the cure of Throat Distemper, or Malignant, Putrid, Ulcerated Sore Throat, Scarlet Fever, Canker Rash, Canker in the Mouth, Throat and Bowels, Diarrhea, Dyssentary, Sore Mouth of nursing women, and Acrid Humors of Teething Children; in short, for almost all the affections of the Mucus membrane of the mouth, throat and alimentary canal. These diseases are acknowledged by all physicians to be of the most severe and obstimate character, and have long baffled their skill and research. The discovery therefore of an effectual remedy for them, par ticularly for the various forms of Scarlet Fever, must sidered by every true philanthropist as an invaluable dosidera-tum. As a common and perfectly safe family medicine, it will be found of inestimable value in cases of common sore throats and colds—disordered state of the stomach and bowels—such as habitual costiveness, indigestion, flatulency, nausea and vomiting. Also, in cases of weakness arising from fever and the stomach and the stomach consumption Act, it will be all debilitating diseases, such as consumption, &c; it will be found very beneficial as a cathartic and alterative, as it neither causes debility, nor does it, as is the case with the operation

of most medicine, so readily dispose one to take cold.

The Vegetable Extract has now been some time before the public, and its great powers justly tested. Hundreds of individuals have successfully tried it, and several eminent physicians are in the almost daily use of it in their practice, who are truly astonished at its great curative qualities, and are ready to give their testimony in favor of its efficiency and power. There now remains but one obstacle in the way of its very general use, and that is, the price The proprietors, being desirous to obviate this difficulty, have therefore determined to reduce the price to 62½ cents per bottle, for one year, which barely remunerates for the great expense of preparing the article; this will bring it within the means of every person, so that no one need suffer for the want of it; and the poor man that no one need suffer for the want of it; and the poor man that he will be suffered for the want of it; and the poor man that he will be suffered for the want of it; and the poor man that he will be suffered for the want of it; and the poor man that he will be suffered for the want of it; and the poor man that he will be suffered for the want of it; and the poor man that he will be suffered for the want of it; and the poor man that he will be suffered for the want of it; and the poor man that he want of it.

ESSRS, RICHARDSON & STRATTON, having associated themselves in business, for the purpose of instruction in Penmanship, Book Keeping and Arithmetic, beg leave to offer the citizens of Boston and the public generally a prospectus of the course pursued by them.

Messrs Richardson & Stration, are loth so well known to the Boston public, as teachers of Penmauship, and have taught that art with so much success in this city, that it will pernaps be unnecessary to say any thing further of their system of instruction, the merits of which are so universally acknowledged. For the information, however, of persons who reside at a distance, and may be desirous of being taught the above branches, they beg leave to add, that the system is simple and natural, and will readily remove that stiffness of the arm and fingers which is so embarrassing, and which other professors have heretofore almost entirely fulled to accomplish.

BOOK-KEEPING.
In the department of Book-Keeping, Messra. R. & S. have had much personal experience, and have also derived valuable information from several eminent merchants of this city, which enables them to combine the elementary instructions of the masser, with the practical improvements of the merchant. They propose to initiate young gentlemen, who are about entering upon Commercial Business, not to teach merchants. They do not peetend to have made any new inventions or precedents of merchant exceptions, and successfully action to the living parts, and we can hardly conceive of a specific character, as Scrofulous Tumors, Glands, Uccers, and played their pupils scouting house, to transact business with precision and Classes in session morning, attention, such the system is simple and Phlegmonous Inflammad into a Scalas, Evysipelas and Phlegmonous Inflammad into a Scalas (Necrosis) Bles. LEGANT ENGLISH PERFUMERY.—JAS. CORNET OF BUTINGTON, Perfumers, 24 Old Bond st, corner of Burlington Gardens, London, have supplied their Agent, J. A. DICKSON, 36 Cornhill, formerly Market street, with a valuable quantity of the following articles, which have been generally approved.—

been generally approved—

FASHIONABLE SOAFS.

White Hands.—Atkinson's Almond Soap—made from the purest Oil of Almonds—uniting all the softening qualities of the company Alkaline the Almond with the detergency of the common Alkaline

Chapped Hands.—Camphor Soap—J. & E. E. A. recommend this Soap as containing a greater quantity of Camphor than has hitterto been considered practicable. It possesses all the cooling and other good qualities of that well known article.

For Family Use—Atkinson's old brown Windsor Soap.

Ambrosial Soap—It is made from pure vegetable oil, and is equally mild as the almond, only differing from it in perfume and color—the latter being a light brown, and the perfume a combination of those most generally approved.

The above, with every other new and fashionable Soap and Shaving Cakes, are always ready for exportation, and an al-

The above, with every other new and fashiomable Soap and Shaving Cakes, are always ready for exportation, and an allowance is always made on taking one or more dozen.

Atkinson's Concentrated Essence of Lavender—prepared four times the strength of the best Lavender Water, freed from all the empyreuma of the spirit, and unsophisticated with the sickly admixture of musk ambergris, &c. The superiority of this article to Lavender Water is, that it is much more powerful and fragrant—it is also much cheaper, as there is four times more perfume of the Essence for the money, than in the best

Bear's Grease, for the growth of Hair—This article is pro-cured from the animal in its native climate, it being known to possess more vivilying proper ies when so procured, than when the animal is in a domesticated state. It is of the finest qual-ity, and is sent out without any admixture, except a little per-fume to keep it sweet—and for the growth of hair it is no doubt far superior to any thing hitherto known. Also for dressing the hair it is very pleasant and useful—cleansing the head from dandriff, and making, the hair heavitally head from dandriff, and making the hair beautifully soft and

Atkinson's Curling Fluid, or Vegetable Hair Oil-for dress ing the Hair This article has been very generally patronised for the last twenty years—and is considered an indispensable appendage to the toilet—it is a most excellent article for dressing the hair, making it, however, harsh, soft and glossy as silk—and keeping it in curl in exercise or damp weather.

Almond Shaving Paste—In very neat portable pots; a very elegant and excellent preparation for snaving.

Milk of Almonds—The most elegant and efficacious cosmetic hiberto introduced. It is a great improvement to what has long been known as Milk of Roses. It removes freckles, red-

ness, roughness, &c. from the skin, and gives it a brilliant clearness and whiteness.

Atkinson's Depilatory—For removing superfluous Hair on the Face, Neck or Arms, with equal certainty and safety, leaving the skin softer and whiter than before the application.

Hudson's Botanic Tooth Powder and Tincture.—These Deptilations which have a much attracted the attention of the Dentrifices, which have so much attracted the attention of the Medical Profession, are remedies for all disorders of the mouth; they not merely cleanse and beautify the Teoth, but mouth; they not merely cleanse and beautify the Teoth, but preverve them from decay. They make the Teeth white, fast en sach as are loose, eradicate the scurvy and tartar from the gums, leaving them firm and of a healthy redness, and if used regularly will supersede the necessity of a Dentist. They are entirely free of acid, and so innocent that a child may take the contents of a box of the Powder; and the Tincture is an excellent stomachic, and a certain remedy for the Toothache.

Hudson's Tooth Brushes—in sets of three—made on scientific principles, and warranted in bone and ivory. Alla Ad Deen Mahomed's Dye-for changing the hair on the head, eyebrows or whiskers, to a permanent brown or black, by one application, without staining the skin or the

finest linen.

Caution—Every article of James and Edward Atkinson's manufacture has their names and address distinct on the label, also—a small address stamp, similar to a patent medicine stamp, printedin colors.

7 THM SOONIAN BOTANIC IN FIRMARY, No 554, Washington-street, Hoston, Opposite the Worcester Rail Road Ticket Office.—The subscriber would inform his friends and the public, that he has taken that large and spacious Infirmary above named, and formerly occupied by Dr Brown and himself—that he has fitted it up in a style not supposed by any other in the State for convenience and comsurpassed by any other in the State for convenience and com-fort: the rooms are large and airy, and command a fine pros-pect of the Worcester and Providence Rail Roads and the surpect of the Worcester and Providence Rail Roads and the sur-rounding country on the West-Boston Harbor, its islands, shipping, light houses, &c. on the East, with the most pure air of any part of the city. taken the above establishment, formerly occupied by Mrs 8.

B. Burnham, where he intends carrying on the BAKING business in all its various branches.

The undersigned would take this opportunity to return thanks to his old patrons for their liberal favors; and to express his regret that any untoward circumstances should have prevented for a time his supplying them with bread manufactured under his own supervision. He would assure them, however, that he is now prepared to answer all their calls and to furnish them with bread of every kind, of the very first order. His French Rolls, in particular, which have given so der. His French Rolls, in particular, which have given so der they have found them very recently, may find them now by calling as above. His Family Bread, i.o., he may syw with confidence, will give no less satisfaction than formerly, and he whole number every individual except two persons have by calling as above. His Family Bread, i.o., he may syw with confidence, will give no less satisfaction than formerly, and he whole number every individual except two persons have been relieved, and more than three fourths cured who have left his Infirmary, assisted by Dr Darling in all difficult cases, who has been a regular Practitioner of the Thomsonian Student of the Thomsonian Student of the Thomsonian Medicines in their other of System for more than fourteen years in this city. Mrs Badger will attend to the Ladies department at all time —she having been an experienced nurse over eighteen years, a part of which time she was nurse in the Massachusetts General Hospital, since in private families, and for the two last years a strict Thomsonian nurse. The subscriber would respective invite the afflicted of all descriptions to call and examine

the public, and solicit for him a continuance of the patronage bestowed upon the former establishments.

ment of pure Thomsonian Medicines, done up with directions for use, at wholesale and retail.

P. D. BADGER, Botanic Physician. DURE BEAR'S OIL may be had by the groce, dozen or single bottle, of A. BOYDEN, Hancock-st.

As in all cases, so especially in this, Venders, if they wish to secure the patronage of the public, should be extremely cause

tious not to sell an article for the Hair which tends to counter act rather than assist nature,
The virtues of Bear's Oil have been too long tested to need

ary eulogium; and at this time no one can doubt of its being the very best article for strengthening and promoting the growth of the Hair. An honest prejudice against the use of Bear's Oil has long existed, arising from two causes—the improper method of purifying it, and the imposition upon the public of a spurious article. That this prejudice may be wholly removed, this article now offered is warranted the pure Oil, rendered more pleasant by the addition of a little perfume—and the possibility of its injuring the Hair is entirely precluded by the manner in which it has been purified. To prevent fraud, the genuine is enclosed in two wrappers, the inside one being

and feeing very grateful for the same, besides having had considerable experience in the practice on others while at Dr. Watkin's Infirmary, in Harvard street; and having been at considerable expense in fitting up his house for an Infirmary, so as to make it convenient for himself and the sick, now of fers his services in removing disease under the patronage of Dr. Samuel Thomson, from whom he will receive all his medicine, and he flatters himself that he shall be able to give general satisfaction. He will also keep Medicines and Family Rights for sale, and hopes to receive a reasonable share of public patronage.
